Dr. Jonathan Davis' involvement in the medical industry has been vast. His ability to help others in the medical field served him well as he built a solid, six-figure income with Market America. His former positions include paramedic for the City of Buffalo for 7 years, critical cardiac care technician at Lake Shore Hospital CCU, working in pediatric critical care at Our Lady of Victory Children's Home, member of the Children's Hospital Neonatal Transport Team, instructor of Emergency Medical Procedures at NY Chiropractic College, and instructor for the American Heart Association. Due to the tremendous opportunity Market America provides, Dr. Jonathan has been able to also retire from his private family Chiropractic practice. Don't miss this fantastic opportunity to let Dr. Jonathan share with you how to "fire your boss" and become financially free!
